GO

“ I am Jack's sister Gail Oasen but my sister Judy does not recognize my husband Al Oasen as his name was not mentioned in Jack's Obituary. If you do not acknowledge my husband I guess you do not acknowledge me also. And this Kathy that was suppose to write me a letter has not done so. I guess that will never happen either. Judy only tells me what she wants me to know, everything else is a secret between Kathy and her.

She never had plans on putting my husbands name in my brothers obituary. To me this is a slap in the face. I guess when you are out of sight your are out of mind. So that is how my family thinks of us out here.

From Alfred and Gail Oasen

JZ

“ When I was young, Jack and Betty were close friends with my parents. We did a lot together and they became like surrogate parents to me and my sisters. The thing I most remember about Jack is that when he was around, everyone laughed - a lot. Jack was the one who explained to me why a joke I liked to tell was not appropriate for a 10 year old. Then he laughed and told me how funny I was and how humor would get me through a lot of things in my lifetime. This lesson has stayed with me and I am grateful for the part Jack played in my life. He will be truly missed.
